STICKY STRIPS

Take this sheet and tear it up, by hand, into thin strips

Use the glue you have been given to stick the strips together to make one long strip.

Your aim is to make the strip as long as possible

IF you are in detention with other people, congratulations..... you are competing against the others to make the longest strip. Whoever makes the shortest strip, stays longest....

If your teacher is extra evil..... The person who makes the shortest strip will have to cut the longest strip up...and stick it back onto a blank piece of A4 paper
