

DESIGN PRODUCTION PLANNING

More Free Resources at www.ajbooker.co.uk

1 Lots of things you do you practise every day, unlike Superman® you always get you pants on the right side of your trousers, and you ALWAYS brush your teeth after every meal rather than once a day or week.....
New things need planning though. If you've never done them before you will need to think about it first. The best way to plan is to write down all the little things (called stages) that you need to do, put them in the right order, and then follow them. Otherwise your design may end up a little odd.....

2 Your Teacher will help you work out the stages in making your design. Write them down here in the correct order.

HAPPY EASTER

STAGE 1

STAGE 2

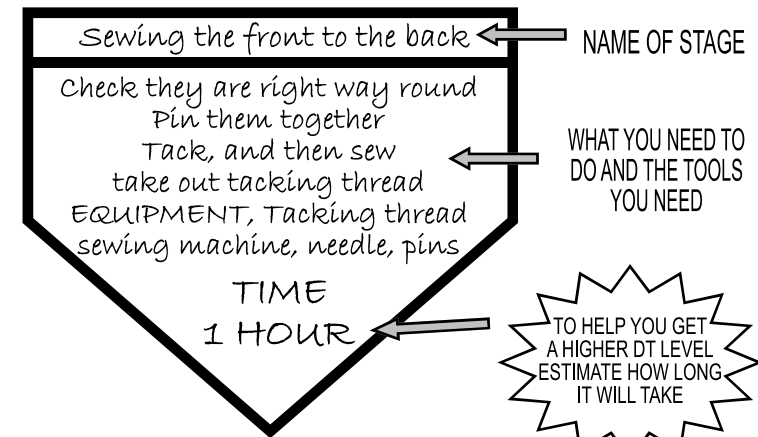

STAGE 3

STAGE 4

STAGE 5

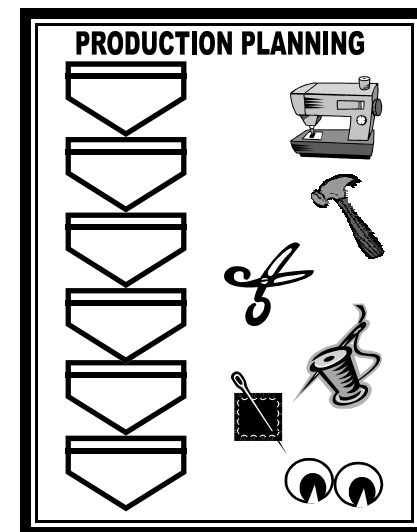

STAGE 6

3 Each stage is made up of little tasks.
You will need to list the tools and equipment needed for each stage. Here is a good way of laying out the information.

4

Lay out the stages this way on a piece of A3 paper. Don't forget your Name, Class and Date. Add coloured sketches of what you will be doing.
